

Shine a Light – Bryan Adams

You were born in a **small** town
Always had dreams **bigger** than your **brother**, you know it
Hit the road where it **forks** down
Made good decisions, **start** from the **gutter**, you know it
/ C G / F AmG / :

Big city lives, **fast** lane living but
You never forgot your **roots**, **oh** ooh
Back in town, **daddy's** advice
Baby don't forget that **you**
/ Am G / F GC / 1st / F G /

Shine a **light**, shine a light, shine a **light**
Shine a light, shine a **light** – **everywhere** you go
Shine a **light**, shine a light, shine a **light**
Shine a light, shine a **light** – **everyone** you know
/ C G / F - / :

Shine a **light**
Shine a **light**
/ C GF / /

You've struggled be-**fore** now
Each time you **made** out the **other** side
Pick yourself up when you fall **down**
Stand tall and **never** be a-**fraid** to cry

Big city life, **same** thing, different town
Darling don't forget your **roots**, **well**
Back in town, **momma's** advice
Baby don't forget that **you**

Chorus

People love and people cry,
People live and people die
And I'll **never** meet another life like **you**
Every day and every night,
Teaching you wrong from right
Now you get to shine a light don't **you**, don't you
/ Dm / G / C F / :

Chorus 2x

You were born in a **small** town ...
